Shading or permanent pile reversal, which results in some areas being darker than others, may be evident in some cut pile carpets. This is a natural phenomenon, not a manufacturing fault, and will not affect the durability of the carpet.

Please note that colour reproduction may vary from sample due to dye lot variation.

It is recommended that this carpet be installed and maintained in accordance with AS/NZS 2455.1:2007 and AS/NZS 3733:1995 unless otherwise specified.
